Why buy a book you can download for free? We print this book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). Reserve Component Personnel Issues

Questions and Answers

DIANE Publishing The term *Reserve Component* is used to refer collectively to the seven individual reserve components of the armed forces: the Army Nat. Guard (NG), the Army Reserve, the Navy Reserve, the Marine Corps Reserve, the Air NG, the Air Force Reserve, and the Coast Guard Reserve. These reserve components provide trained units and qualified persons available for active duty in the armed forces. Since 1990, reservists have been involuntarily activated six times, incl. two large-scale mobilizations for the Persian Gulf War and in the aftermath of 9/11. This increasing use of the reserves has led to interest in funding, equipment, and personnel policy. This report provides an overview of key reserve component personnel issues. This is a print on demand report.

Army Leadership

Competent, Confident, and Agile (Field Manual No. 6-22)

Createspace Independent Pub **Competent leaders of character are necessary for the Army to meet the challenges in the dangerous and complex security environment we face. As the keystone leadership manual for the United States Army, FM 6-22 establishes leadership doctrine, the fundamental principles by which Army leaders act to accomplish their mission and care for their people. FM 6-22 applies to officers, warrant officers, noncommissioned officers, and enlisted Soldiers of all Army components, and to Army civilians. From Soldiers in basic training to newly commissioned officers, new leaders learn how to lead with this manual as a basis. FM 6-22 is prepared under the direction of the Army Chief of Staff. It defines leadership, leadership roles and requirements, and how to develop leadership within the Army. It outlines the levels of leadership as direct, organizational, and strategic, and describes how to lead successfully at each level. It establishes and describes the core leader competencies that facilitate focused feedback, education, training, and development across all leadership levels. It reiterates the Army Values. FM 6-22 defines how the Warrior Ethos is an integral part of every Soldier's life. It incorporates the leadership qualities of self-awareness and adaptability and describes their critical impact on acquiring additional knowledge and improving in the core leader competencies while operating in constantly changing operational environments. In line with evolving Army doctrine, FM 6-22 directly supports the Army's capstone manuals, FM 1 and FM 3-0, as well as keystone manuals such as FM 5-0, FM 6-0, and FM**

7-0. FM 6-22 connects Army doctrine to joint doctrine as expressed in the relevant joint doctrinal publications, JP 1 and JP 3-0. As outlined in FM 1, the Army uses the shorthand expression of BE-KNOW-DO to concentrate on key factors of leadership. What leaders DO emerges from who they are (BE) and what they KNOW. Leaders are prepared throughout their lifetimes with respect to BE-KNOW-DO so they will be able to act at a moment's notice and provide leadership for whatever challenge they may face. FM 6-22 expands on the principles in FM 1 and describes the character attributes and core competencies required of contemporary leaders. Character is based on the attributes central to a leader's make-up, and competence comes from how character combines with knowledge, skills, and behaviors to result in leadership. Inextricably linked to the inherent qualities of the Army leader, the concept of BE-KNOW-DO represents specified elements of character, knowledge, and behavior described here in FM 6-22.

Command Deployment Discipline Handbook

The Command Deployment Discipline Program (CDDP) is a commander's tool designed to enhance unit deployment readiness. This handbook is a combination of doctrinal and regulatory tasks that address Army standards, fundamentally focused on equipment movement and associated tasks from division to company level, to include installation tasks. Following 13 years of conflict, our Army is transitioning to an expeditionary force that is primarily based in the continental United States. Many of our Army's junior leaders, having become accustomed to rotationally deploying in support of Operation Iraqi Freedom/Operation New Dawn and Operation Enduring Freedom (Afghanistan), have limited experience in executing short-notice deployments. Deployments in the recent past have been characterized by units receiving equipment in theater rather than deploying all of their organic equipment from home station, as well as the robust use of contractors throughout the deployment and reception, staging, onward-movement, and integration process. In many cases, the fundamental skills required to execute short-notice deployments involving all of a unit's organic equipment have atrophied over the past years.

This handbook will assist transgender service members in their gender transition, help commanders with their duties and responsibilities and help all service members understand department policy allowing the open service of transgender service members. It is the product of broad collaboration among the services, and is intended as a practical day-to-day guide.
