Spine Imaging E-Book

Case Review Series

Elsevier Health Sciences **This volume in the best-selling "Case Review" series uses nearly 200 case studies to challenge your knowledge on a full range of topics in spine imaging. Each case includes a set of 1 to 4 unknown images and four self-test questions, accompanied by answers, supporting literature references, and a commentary to help you gain a better understanding of how the correct diagnosis was reached. The discussion addresses the most important imaging, pathological, and clinical features of the case. This unique case-based format - coupled with an easy-access organization and high-quality images - equips you with the guidance you need to master the material, pass certification exams, and succeed in practice. Serves as a useful preparation tool for certification review with its unique case-based format that mimics the actual exam. Illustrates many nondegenerative diseases of the spine, such as congenital, vascular, neoplastic, inflammatory/infectious, and traumatic cases, including abnormal imaging findings. Covers diseases involving spinal nerves and paraspinal plexuses, facilitating recognition of entities such as hereditary peripheral neuropathies and the perineural spread of neoplastic disease. Offers more than 400 high-quality, state-of-the-art images - most new to this edition - representing a wide range of clinical situations encountered in the field. Features cases at three different levels of difficulty: Opening Round, Fair Game, and Challenge to test the knowledge of any practitioners, regardless of degree or experience. Presents new and expanded coverage of vascular lesions · vetebral lesions · lesions of spinal/peripheral nerves · MR/CT techniques · and more. Features completely new figures as part of 120 new and existing cases. Includes cross references of every case to Grossman & Yousem text, Neuroradiology: The Requisites, 2nd Edition.**

Buck's 2022 ICD-10-CM for Hospitals E-Book

Elsevier Health Sciences **At-a-glance Guide to the 2022 ICD-10-CM Updates in the front of the book lists all new, revised, and deleted codes, providing at-a-glance lookup of the coding changes. Official Guidelines for Coding and Reporting (OGCRs) are listed in full in the Introduction, at the beginning of each chapter, and integrated within the code set, providing easier reference to coding rules when they are needed most. Unique! Full-color anatomy plates (including Netter's Anatomy art) are included in a separate section for easy reference and cross-referenced within the Tabular List of Diseases and Injuries, to help users understand anatomy and how it may affect choosing codes. Full-color design includes consistent color-coded symbols and text, providing easier access to codes and coding information. American Hospital Association's Coding Clinic® citations include official ICD-10-CM coding advice relating to specific codes and their usage. 191 illustrations provide visual orientation and enhance understanding of specific coding situations. Items are included throughout the Tabular List to ensure accurate coding, providing additional information on common diseases and conditions. Additional elements within specific codes define terms and add coding instructions relating to difficult terminology, diseases and conditions, or coding in a specific category. Symbols and highlights draw attention to codes that may require special consideration before coding, including: new, revised, and deleted Unacceptable Principle Diagnosis Codes that call for the use of additional character(s) Includes, Excludes 1 and Excludes 2 Use Additional Unspecified Code First and Code Also Placeholder X symbol reminds users to assign placeholder X for codes less than 6 characters that require a 7th character. CC (Complications & Comorbidities) and MCC (Major CC) symbols identify codes associated with the presence of secondary diagnoses from MS-DRGs, and call attention to CC and MCC exceptions. Hospital Acquired Condition symbol clearly identifies conditions that will always be coded as hospital acquired. Manifestation code symbol identifies conditions for which it is important to record both the etiology and the symptom of the disease. HCC symbol indicates diagnoses in the Tabular List associated with Hierarchical Condition Categories. Age and Sex edits from the Definition of Medicare Code Edits help to ensure accuracy by denoting codes that are used only with patients of a specific age or sex.**
