EVERYTHING YOU NEED TO KNOW

PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

THE GLOBAL BRAND

HOW TO CREATE AND DEVELOP LASTING BRAND VALUE IN THE WORLD MARKET

St. Martin's Press **A top executive at one of the world's leading marketing firms analyzes the familiarity and strength of brands and establishes five steps towards increasing brand strength in a globalized world Rapid advances in modern technology present companies with quickly expanding marketing opportunities, but they also create an over-saturated business landscape that both helps and hurts brands. The Global Brand is a thorough investigation of brand strength in the accelerated modern business world. Nigel Hollis draws on his experience at Millward Brown to present a simple formula for determining brand strength based on two axes, Presence (or familiarity) and Voltage (or marketing appeal), to illustrate the market value and performance of brands. He analyzes the five steps of customer commitment to a strong brand--Presence, Relevance, Performance, Advantage, and Bonding. Finally, Hollis emphasizes human nature as a set of constant core values that all brands should appeal to, and analyzes the future of brand-building as a profitable investment. "In The Global Brand, Nigel Hollis not only corrects some of the misconceptions of the past but offers a glimpse of the future that is both perceptive and grounded in good business sense. Those who take the time to properly digest this book will save their companies a lot of money." —Sir Martin Sorrell, Chief Executive Officer, WPP**

HARLEY-DAVIDSON SPORTSTER PERFORMANCE HANDBOOK

Motorbooks International For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head.

HOW TO REPAIR YOUR MOTORCYCLE

RACE TECH'S MOTORCYCLE SUSPENSION BIBLE

Motorbooks Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to

professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

HOVER CAR RACER

In the world of the near future, the most popular sport in the world is hover car racing. Super fast and dangerous, its heroes are the racers: part fighter pilot, part race - car driver, all superstar. But to get to the Pro Circuit, you must first pass through the International Race School, a brutal

cauldron of wild races on even wilder courses, where only the best of the best will survive. This is the story of Jason Chaser, a talented young racer selected to attend the Race School. He's younger than the other students. He's smaller. His trusty car, the Argonaut, is older. But Jason Chaser is no ordinary racer. And as he races against the best drivers in the world he will learn that at Race School winning is everything, that not everyone in this world fights fair, and that you never ever have any friends on the track.
