Code Why Children Need to Learn Programming MIT Press Why every child needs to learn to code: the shift from "computational thinking" to computational participation. **Model Rules of Professional Conduct** American Bar Association The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. **Zero Hours and On-call Work in Anglo-Saxon Countries** Springer This book focuses on zero hours and on-call work as an extreme form of casual and precarious employment. It includes country studies of the USA, Canada, Australia, the UK, New Zealand and Ireland, where there has been increasing concern about the prevalence of such work, and working time uncertainty, as well as varying levels of public policy debate on regulation. The book incorporates a comparative review of zero hours work based on the findings of the country studies. This pays particular attention to state regulatory responses to zero hours work, and incorporates the sociological concepts of accumulation and legitimation functions of the state. Exploring the regulation of zero hours work beyond individual countries, the book includes an analysis of external regulation of zero hours work at the supranational level, namely the European Union and ILO. Further, it assesses the implications of zero hours for workers in new sectors of economic activity, particularly the impact of the platform or 'gig' economy on the fundamental nature of the employment relationship. It also considers the societal implications of zero hours work and the ethical responsibilities of employers and governments towards workers as citizens. **The Giving Tree** Harper Collins As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half*, *Who Wants a Cheap*

Rhinoceros?, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic!* **Protest Technologies and Media Revolutions The Longue Durée** Emerald Group Publishing Contains an Open Access chapter. With chapters spanning from the Russian Revolution to the present day, this book considers how art, media and communication technologies have been operationalised to connect, mobilise, organize and inspire the masses in particular national, political, and economic contexts. **RRB PO Practice Set 2021: Download 200 Solved Examples in PDF! This guide comes with 200 solved examples & free answer key on IBPS RRB PO Mains Syllabus to help you ace the crucial Banking spot. **Knowledge of the Law in the Big Data Age** IOS Press The changes brought about by digital technology and the consequent explosion of information known as Big Data have brought opportunities and challenges in all areas of society, and the law is no exception. This book, *Knowledge of the Law in the Big Data Age* contains a selection of the papers presented at the conference 'Law via the Internet 2018', held in Florence, Italy, on 11-12 October 2018. This annual conference of the 'Free Access to Law Movement' (<http://www.fatlm.org>) hosted more than 60 international speakers from universities, government and research bodies as well as EU institutions. Topics covered range from free access to law and Big Data and data analytics in the legal domain, to policy issues concerning access, publishing and the dissemination of legal information, tools to support democratic participation and opportunities for digital democracy. The book is divided into 3 sections: Part I provides an introductory background, covering aspects such as the evolution of legal science and models for representing the law; Part II addresses the present and future of access to law and to various legal information sources; and Part III covers updates in projects, initiatives, and concrete achievements in the field. The book provides an overview of the practical implementation of legal information systems and the tools to manage this special kind of information, as well as some of the critical issues which must be faced, and will be of interest to all those working at the intersection of law and technology. **Fostering Employee Buy-in Through Effective Leadership Communication** Routledge Based on a case study of leadership communication in a time of organizational change, this book gives new leaders insights into the tools and skills needed to become effective, motivating communicators in their leadership careers. Taking a holistic approach to communication and leadership, the book argues that employees buy in to change when they collectively feel engaged in meaningful work that will enrich the lives of customers, employees, and investors. Based on ethnographic research, it approaches the topic through an absorbing fiction-like retelling of an organization's successful navigation of change against the backdrop of the 2007 mortgage crisis. In doing so, it establishes a framework for leaders to understand the principles behind how and why buy-in is generated in organizations. This unique approach allows readers to visualize leadership communication principles in practice. *Fostering Employee Buy-in* is ideal as a supplementary text in introductory leadership communication, management, and business courses or as a text for new leaders interested in inspiring organizational change. **Giving Bodies Back to Data Image Makers, Bricolage, and Reinvention in Magnetic Resonance Technology** MIT Press An examination of the bodily, situated aspects of data-visualization work, looking at visualization practices around the development of MRI technology. Our bodies are scanned, probed, imaged, sampled, and transformed into data by clinicians and technologists. In this book, Silvia Casini reveals the affective relations and materiality that turn data into image--and in so doing, gives bodies back to data. Opening the black box of MRI technology, Casini examines the bodily, situated aspects of visualization practices around the development of this technology. Reframing existing narratives of biomedical innovation, she emphasizes the important but often overlooked roles played by aesthetics, affectivity, and craft practice in medical visualization. Combining history, theory, laboratory ethnography, archival research, and collaborative art-science, Casini retrieves the multiple presences and agencies of bodies in data visualization, mapping the traces of scientists' body work and embodied imagination. She presents an in-depth ethnographic study of MRI development at the University of Aberdeen's biomedical physics laboratory, from the construction of the first whole-body scanner for clinical purposes through the evolution of the FFC-MRI. Going beyond her original focus on MRI, she analyzes a selection of neuroscience- or biomedicine-inspired interventions by artists in media ranging from sculpture to virtual reality. Finally, she presents a methodology for designing and carrying out small-scale art-science projects, describing a collaboration that she herself arranged, highlighting the relational and aesthetic-laden character of data that are the product of craftsmanship and affective labor at the laboratory bench. **River Thunder** Canyon Country Books On the vast and indescribably beautiful South Rim of the Grand Canyon a young Hualapai boy faces a bleak future in 1902. River Thunder's mother has just passed into the Spirit World and his father has nothing left to give the boy except his hand carved flute and his magical gift for music. It is a time in America's history when Native American children were separated from their loving families, tribes and even their ancient and traditional cultures and sent to distant "Indian Schools" for re-education and vocational training. River Thunder will carry his flute, courage and trusting innocence to the Hackberry Day School still standing today on old Route 66 while never once imagining how his fate will one day soar like an eagle over the magnificent Grand Canyon. His life's journey will carry River Thunder into a tender but forbidden love and the terrifying but exhilarating experience of aerial warfare fought in a World War I biplane. RIVER THUNDER was the recipient of the prestigious Western Writers of America's 2009 Spur Award for Best Western Audio Book. The story begins in the early 1900's and ends shortly after World War I, and is set against the harsh background of Arizona's rugged northern mountains and the magnificent Grand Canyon. **Atlantis Rising Magazine Issue 28 - Searching the Andes for Atlantis PDF Download** Atlantis Rising magazine In this 88-page download: LETTERS EARLY RAYS THE NEW HERETIC Infinite Energy Editor Eugene Mallove Starts a Regular Atlantis Rising Column THE FORBIDDEN ARCHAEOLOGIST A New Column from the author of *Forbidden Archaeology*: Michael Cremo FUEL FROM YOUR TAP? The core belief that Popular Science and our readers share: The

future is going to be better, and science and technology are the driving forces that will help make it better. **The Scars That Have Shaped Me How God Meets Us in Suffering** 21 surgeries by age 13. Years in the hospital. Verbal and physical bullying from schoolmates. Multiple miscarriages as a young wife. The death of a child. A debilitating progressive disease. Riveting pain. Abandonment. Unwanted divorce... Vaneetha begged God for grace that would deliver her. But God offered something better: his sustaining grace. **Smarter Than You Think How Technology Is Changing Our Minds for the Better** Penguin A revelatory and timely look at how technology boosts our cognitive abilities—making us smarter, more productive, and more creative than ever It's undeniable—technology is changing the way we think. But is it for the better? Amid a chorus of doomsayers, Clive Thompson delivers a resounding “yes.” In *Smarter Than You Think*, Thompson shows that every technological innovation—from the written word to the printing press to the telegraph—has provoked the very same anxieties that plague us today. We panic that life will never be the same, that our attentions are eroding, that culture is being trivialized. But, as in the past, we adapt—learning to use the new and retaining what is good of the old. *Smarter Than You Think* embraces and extols this transformation, presenting an exciting vision of the present and the future. **Atlantis Rising Magazine Issue 135 PDF download - SEEKING THE “LOST” EQUATOR** Atlantis Rising magazine In This 88-page edition: ANCIENT MYSTERIES SEEKING THE “LOST” EQUATOR Ice-Age-Era Artifact of a Destroyed Civilization? However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators. **24/6 Giving up Screens One Day a Week to Get More Time, Creativity, and Connection** Gallery Books “Put down your phone and pick up this book” (Angela Duckworth, #1 New York Times bestselling author) that demonstrates how turning off screens one day a week can work wonders on your brain, body, and soul. Internet pioneer and renowned filmmaker Tiffany Shlain takes us on a provocative and entertaining journey through time and technology, introducing a strategy for living in our 24/7 world: turning off all screens for twenty-four hours each week. This practice, which she's done for nearly a decade with her husband and kids, has completely changed their lives, giving them more time, productivity, connection, and presence. She and her family call it “Technology Shabbat.” Drawn from the ancient ritual of Shabbat, living 24/6 can work for anyone from any background. In this “useful and much-needed guide to turning the clock back to a less frazzled pre-Internet and -smartphone day” (Kirkus Reviews), Shlain shares her story, offers lessons she has learned, and provides a blueprint for how to do it yourself. Along the way, she delves into the neuroscience, philosophy, psychology, and history of a weekly day of rest across cultures, making the case for why we need to bring this ritual back. A compelling personal story and a fascinating, far-reaching examination of the complex world we've created, 24/6 is a call to regain “the essential dignity of being human in a digital

age" (Douglas Rushkoff, author of *Team Human*). **Generous Thinking A Radical Approach to Saving the University** Johns Hopkins University Press Meditating on how and why we teach the humanities, *Generous Thinking* is an audacious book that privileges the ability to empathize and build rather than simply tear apart. **ThompsonCourierRakeRegister_2018-07-19_all.pdf** Thompson Courier & Rake Register, L.L.C. [ThompsonCourierRakeRegister_2018-07-19_all.pdf](#) **The Fourth Industrial Revolution** Currency Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement **Connecting Care for Patients** Jones & Bartlett Learning *Connecting Care for Patients: Interdisciplinary Care Transitions and Collaboration* addresses practical strategies for creating connected, seamless, and transparent health care for patients in settings outside of the hospital. It presents antidotes to healthcare fragmentation caused by inefficient care, patient safety problems, patient dissatisfaction, and higher costs. The text focuses on clinical case management, interdisciplinary referrals and conferencing, cross functional team meetings, tracking patients in value-based purchasing programs, inpatient liaison visits, structured collaboration with physician groups, and referral sources and development of clinical community networking groups. Further, it explores tools for patient self-management support, effective integration of technology, family caregiver engagement, and techniques for addressing health disparities and other high-risk care gaps. **The Subtle Art of Not Giving a F**k A Counterintuitive Approach to Living a Good Life** HarperCollins #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. *The Subtle Art of Not Giving a F**k* is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives. **Backpacker** Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured. **Working Mother** The magazine that helps career moms balance their personal and professional lives. **Anti-Cartel Enforcement in a Contemporary Age Leniency Religion** Bloomsbury Publishing Leniency policies are seen as a revolution in contemporary anti-cartel law enforcement. Unique to competition law, these policies are regarded as essential to detecting, punishing and deterring business collusion - conduct that subverts competition at national and global levels. Featuring contributions from leading scholars, practitioners and enforcers from around the world, this book probes the almost universal adoption and zealous defence of leniency policies by many competition authorities and others. It charts the origins of and impetuses for the leniency movement, captures key insights from academic research and practical experience relating to the operation and effectiveness of leniency policies and examines leniency from the perspectives of corporate and individual applicants, advisers and authorities. The book also explores debates surrounding the intersections between leniency and other crucial elements of the enforcement system such as compensation, compliance and criminalisation. The rich critical analysis in the book draws on the disciplines of law, regulation, economics and criminology. It makes a substantial and distinctive contribution to the literature on a topic that is highly significant to a wide range of actors in the field of competition law and business regulation generally. From the Foreword by Professor Frédéric Jenny ' ... fundamental questions are raised and thoroughly discussed in this book which is undoubtedly the most comprehensive scholarly work on leniency policies produced so far ... [the] book should be required reading for all seeking to acquire a deeper insight into the issues related to leniency policy. It is a priceless contribution ... ' **The Giving Way to Happiness Stories and Science Behind the Life-Changing Power of Giving** Penguin A guide to how giving can be the key to happiness—combining the latest research with firsthand accounts from Goldie Hawn, Nobel Peace Prize winner Muhammad Yunus, and others. As a Philanthropy advisor, Jenny Santi has met some of the world's most notable and inspiring change-makers. Despite their diverse backgrounds, each of these people has related to Santi that the thing in their life that has given them the most joy is the simple act of giving. In this inspiring book, Santi shares their stories - how they found purpose, healed from past wounds, and discovered meaning beyond material success - as well as her own personal struggles in finding happiness in order to inspire readers to discover the power of giving in their own lives. Told firsthand by such notable people as Academy Award winner Goldie Hawn, Nobel Peace Prize winner Muhammad Yunus, Teach for America founder Wendy Kopp, philanthropist Richard Rockefeller, environmentalist Philippe Cousteau, and many others, the stories in this book make an eloquent and passionate case that oftentimes the answers to the problems that haunt us, and the key to the happiness that eludes us, lie in helping others. In this book you will discover: - How altruism activates the same pleasure centers of the brain stimulated by food, sex, and drugs - Practical, universally applicable lessons on what kind of giving makes people happy and what doesn't. - How to give your time, talents, and treasures in ways that are more impact-oriented, energizing, and rewarding than ever In this inspiring book, Santi reveals giving is the secret to living a life that is full of meaning, purpose, and happiness. **Potter & Perry's Essentials of Nursing Practice, 1st Edition** Elsevier Health Sciences Get a solid foundation in essential nursing principles, concepts, and skills! Potter & Perry's Essentials of Nursing Practice, First South Asia Edition combines everything you need from your fundamentals course and streamlines it into a format that's perfect for busy nursing students. The South Asia edition retains many classic features, including chapter case studies, procedural guidelines, and special considerations for various age groups, along with new content including a chapter on

Complementary and Alternative Therapies, a new Reflective Learning section, and QSEN activities to encourage active learning. Thoroughly reviewed by nursing clinical experts and educators, this new edition ensures you learn nursing Essentials with the most accurate, up-to-date, and easy-to-understand book on the market. **Pocket Book of Hospital Care for Children Guidelines for the Management of Common Childhood Illnesses** World Health Organization The Pocket Book is for use by doctors nurses and other health workers who are responsible for the care of young children at the first level referral hospitals. This second edition is based on evidence from several WHO updated and published clinical guidelines. It is for use in both inpatient and outpatient care in small hospitals with basic laboratory facilities and essential medicines. In some settings these guidelines can be used in any facilities where sick children are admitted for inpatient care. The Pocket Book is one of a series of documents and tools that support the Integrated Managem. **All About Love New Visions** HarperCollins A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better. **Cognitive Surplus How Technology Makes Consumers into Collaborators** Penguin The author of the breakout hit Here Comes Everybody reveals how new technology is changing us for the better. In his bestselling Here Comes Everybody, Internet guru Clay Shirky provided readers with a much-needed primer for the digital age. Now, with Cognitive Surplus, he reveals how new digital technology is unleashing a torrent of creative production that will transform our world. For the first time, people are embracing new media that allow them to pool their efforts at vanishingly low cost. The results of this aggregated effort range from mind-expanding reference tools like Wikipedia to life-saving Web sites like Ushahidi.com, which allows Kenyans to report acts of violence in real time. Cognitive Surplus explores what's possible when people unite to use their intellect, energy, and time for the greater good. **100 Ways to Bring Out Your Best** A guide to bringing out your best, capitalizing on your talents and abilities, exceeding expectations--your own and others'--, improving and making progress. **Why Good Things Happen to Good People How to Live a Longer, Healthier, Happier Life by the Simple Act of Giving** Harmony A distinguished bioethicist examines the life-enhancing benefits of compassion, generosity, kindness, and caring, establishing a link between doing good and physical health, longevity, well-being, life-satisfaction, and more, and outlines a personalized plan for creating a more generous life that finds an outlet and style of giving that suits one's personality and lifestyle. Reprint. 15,000 first printing. **Storytelling for Business The art and science of creating connection in the digital age** Practical Inspiration Publishing "Nothing connects people to engage emotionally with your business better than a well-told story - your story." From mega-large corporations to tiny start-ups, every... single... business always has a story to tell. Before people choose to buy your product or service, or respond to a call to action, they need to understand how you will solve their problem or fulfil their needs. Storytelling for Business reveals why storytelling remains the most impactful way to create a meaningful and sustainable connection with the people who matter the most to your business, and how to tell YOUR story well. For more than 25 years, storytelling has been at the core of everything Rob Wozny has accomplished as an intrepid senior journalist, creative content strategist, and proven business communicator. Leveraging his passion and experience for storytelling, Rob works with business owners and leaders to understand their goals and align them with business storytelling ideas, personalized to attract and engage the people that matter most to them. **Reclaiming Youth at Risk Futures of Promise (Reach Alienated Youth and Break the Conflict Cycle Using the Circle of Courage)** Empower your alienated students to cultivate a deep sense of belonging, mastery, independence, and generosity. This fully updated edition of Reclaiming Youth at Risk by Larry K. Brendtro, Martin Brokenleg, and Steve Van Bockern merges Native American knowledge and Western science to create a unique alternative for reaching disconnected or troubled youth. Rely on the book's new neuroscience research, insights, and examples to help you establish positive relationships, foster social learning and emotional development, and inspire every young person to thrive and overcome. Drive positive youth development with the updated Reclaiming Youth at Risk: Study the four hazards that dominate the lives of youth at risk: relational trauma, failure as futility, powerlessness, and loss of purpose. Learn how cultivating the Circle of Courage values of belonging, mastery, independence, and generosity can combat the four hazards. Explore a unique strength-based approach for reclaiming discouraged or alienated youth. Understand how to create a safe, brain-friendly learning environment and break the conflict cycle. Read personal accounts of individuals who have transformed student trauma into student resilience in schools through trauma-informed practice. Contents: Introduction Chapter 1: Enduring Truths Chapter 2: The Circle of Courage Chapter 3: Seeds of Discouragement Chapter 4: Bonds of Trust Chapter 5: Strength for Learning Chapter 6: Pathways to Responsibility Chapter 7: Lives With Purpose Chapter 8: From Surviving to Thriving References and Resources **Unbinding the Heart A Dose of Greek Wisdom, Generosity, and Unconditional Love** Hay House, Inc Unbinding the Heart invites us on an inspiring journey of inner exploration to reconnect with our true selves. Born in Greece, a country that celebrates life, Agapi Stassinopoulos learned the essential truths of happiness through the examples of wisdom, caring, playfulness, and generosity she saw all around her, starting with her own mother. She came to realize that we are all born with open hearts, but that we quickly learn to put conditions on our happiness--comparing ourselves to others, casting judgment, doubting ourselves, allowing fear or entitlement or self-righteousness to take hold--and slowly our hearts begin to close. We isolate ourselves, feeling alone, disconnected, and unheard; and in doing so, we immobilize our spirit, stifle our authentic expression, and cut off our joy. As she went on, Agapi, like so many of us, came under the soul-constricting influences of the larger world. In her struggle to find her place and her voice, trying to balance the acting career she dreamed of with the spiritual life she longed for, she discovered a path that was uniquely hers. Unbinding the Heart shows how she found her way home to herself. In 32 personal, heartfelt stories full of insight and humor, Agapi takes us from her mother's bountiful kitchen, where the seeds of fearless living were planted, to the London classical stage, to an

epiphany on a New York City bus—and inspires us with the confidence to let go of the beliefs that bind us and come to a deeper understanding of life and love.
