### The Influence Peddlers

*Yale University Press* The eagerly awaited English translation of Kaddour's award-winning novel of clashing cultures during the French colonial years Gather together French colonialists, young nationalists eager for independence, and local Maghreb leaders in a small North African city of the 1920s. Bring a collection of brash American filmmakers and celebrities into the picture. Dangerous cultural collisions are the inevitable result in Hédi Kaddour's best-selling novel of French colonial rule and its persisting legacy of human chaos and cultural tragedy. In this commanding novel, the author plumbs the contradictions of colonialism and the impact on individual lives. With insight, humor, and a profound sense of irony he introduces Les Prépondérants—"The Preponderants," an unofficial group of peddlers of influence who operate at every level of colonial society. American "Hollywood" values, Islamic and secular politics, French manners—none of them escapes Kaddour's skewering wit. Filled with rich irony and wonderful characters, this is a novel that grapples forcefully with colonial relations in the Arabic, North African, and French worlds, while also journeying into the simmering Europe and United States of the Roaring Twenties.

## Giovanni Klaus Koenig

### Un fiorentino nel dibattito nazionale su architettura e design (1924-1989)

Firenze University Press Giovanni Klaus Koenig (1924-1989) è stato architetto, designer di mezzi di trasporto su rotaia, docente universitario, appassionato studioso di treni e di tram, critico dell'architettura contemporanea, storico dell'industrial design, intellettuale impegnato nella soluzione dei problemi della sua città, Firenze. Il tutto in anni nei quali l'attenzione critico-operativa

sull'attuale era inusuale, la disciplina del design da fondare, la pratica progettuale in seno alle aziende di materiale rotabile da parte di un architetto insolita. Il testo si propone di ricostruirne la figura a specchio con il contesto cittadino e con quello nazionale sia con l'apporto di quanti l'hanno avuto come interlocutore sia con il contributo di studiosi che hanno approfondito alcuni temi della sua ricerca. L'obiettivo non si limita alla mera ricomposizione di una figura culturalmente incisiva, ma si propone di indicare allo studioso di oggi ambiti da approfondire, le 'scie fosforescenti' che ci ha lasciato in eredità.

## The Day After Roswell

*Simon and Schuster* Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Research & Development department, has come forward to tell the whole explosive story. ## ZeroZeroZero

*Penguin* An electrifying, internationally bestselling investigation of the global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller Gomorrah “Zero zero zero” flour is the finest, whitest available. It is also the nickname among narcotraffickers for the purest cocaine on the market. And it is the title of Roberto Saviano’s unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano’s Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Savaiano has broadened his perspective to take in the entire global “corporate” entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world’s biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade’s axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most

drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, ZeroZeroZero is an investigative story like none other. Praise for ZerZeroZero: “[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators.” —Financial Times

## The Little Book of Plagiarism

*Pantheon* A concise, lively, and bracing exploration of an issue bedeviling our cultural landscape—plagiarism in literature, academia, music, art, and film—by one of our most influential and controversial legal scholars. Best-selling novelists J. K. Rowling and Dan Brown, popular historians Doris Kearns Goodwin and Stephen Ambrose, Harvard law professor Charles Ogletree, first novelist Kaavya Viswanathan: all have rightly or wrongly been accused of plagiarism—theft of intellectual property—provoking widespread media punditry. But what exactly is plagiarism? How has the meaning of this notoriously ambiguous term changed over time as a consequence of historical and cultural transformations? Is the practice on the rise, or just more easily detectable by technological advances? How does the current market for expressive goods inform our own understanding of plagiarism? Is there really such a thing as “cryptomnesia,” the unconscious, unintentional appropriation of another’s work? What are the mysterious motives and curious excuses of plagiarists? What forms of punishment and absolution does this “sin” elicit? What is the good in certain types of plagiarism? Provocative, insightful, and extraordinary for its clarity and forthrightness, *The Little Book of Plagiarism* is an analytical tour de force in small, the work of “one of the top twenty legal thinkers in America” (*Legal Affairs*), a distinguished jurist renowned for his adventuresome intellect and daring iconoclasm.

# Matematica Finanziaria

*Società Editrice Esculapio* Il manuale sfrutta il materiale utilizzato nei corsi di Matematica finanziaria da me tenuti a partire dal 1997 nelle (allora facoltà e ora) scuole di Economia delle Università di Bologna e Ferrara. Il punto di vista da cui è stato scritto il manuale è quello di un matematico, che fissato un sistema di assiomi, introdotti per rispondere a ragionevoli presupposti economico finanziari, trae logicamente le loro conseguenze. Questo probabilmente differenzia il manuale da analoghe opere scritte da colleghi con formazione economica, a differenza della mia che è in matematica pura, dove, a mio avviso, talora il rigore matematico non è sentito come prioritario. Ho deciso di proporre le dimostrazioni delle formule finanziarie: non me la sono sentita di abolirle, in quanto ritengo che un laureato debba accostarsi alla materia in modo attivo e non meramente esecutivo, possibilmente avendo contezza di quanto andrà quotidianamente ad applicare. Comunque la materia è trattata con taglio applicativo, avendo presenti le future necessità professionali degli studenti. Ad ogni argomento sono associati esercizi svolti. Inoltre sono proposti altri esercizi, di cui mi limito a fornire la soluzione, lasciando spazio allo studente di verificare autonomamente il suo stadio di apprendimento della materia. Il sapore della trattazione è più aziendale che finanziario, questo in ragione delle differenze di formazione matematica fra i curricula aziendali e finanziari e per il fatto che il mio corso si colloca in una laurea di area aziendale. In ogni caso il lettore/studente deve rassegnarsi al fatto che questo testo è scritto a supporto di un insegnamento di carattere matematico, anche se rivolto alle applicazioni aziendali. Nei capitoli dedicati al calcolo finanziario spesso scriveremo uguaglianze arrotondate quali  $1567,84781\dots = \square 1567,85$ . I numeri sono indicati all'italiana, le migliaia sono separate da uno spazio e, la virgola indica l'inizio della parte decimale.

## Post-Digital Print

### The Mutation of Publishing Since 1894

Digital technology is now a normal part of everyday life. The mutation of music and film into bits and bytes, downloads and streams is now taken for granted. For the world of book and magazine publishing however, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-

digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of Neural, a magazine for critical digital culture and media arts. For more than 20 years now, he has been working at the cutting edge (and the outer fringes) of both print publishing and politically engaged digital art.

## Asylum

*Vintage Patrick McGrath* has created his most psychologically penetrating vision to date: a nightmare world rocked to its foundations by a passion of such force and intensity that it shatters the lives--and minds--of all who are touched by it. Stella Raphael, a woman of great beauty and formidable intelligence, is married to Max, a staid and unimaginative forensic psychiatrist. Max has taken a job in a huge top-security mental hospital in rural England, and Stella, far from London society, finds herself restless and bored. Into her lonely existence comes Edgar Stark, a brilliant sculptor confined to the hospital after killing his wife in a psychotic rage. He comes to Stella's garden to rebuild an old Victorian conservatory there, and Stella cannot ignore her overwhelming physical attraction to this desperate man. Their explosive affair pits them against Stella's husband, her child, and the entire institution. When the crisis comes to a head,

Stella makes a decision--one that will destroy several lives and precipitate an appalling tragedy that could only be fueled by illicit sexual love. Asylum is a terrifying exploration of the extremes to which erotic obsession can drive us. Patrick McGrath brings his own dazzling blend of cool artistry and visceral engagement to this mesmerizing story of a fatal love and its unspeakably tragic aftermath. And in Stella Raphael, a woman who tears down the walls of her constricted existence to pursue a dangerous passion, he has created a character who will long be remembered for her willingness to take the ultimate risk, even if she must pay the ultimate price.
